

MEMORANDUM

August 02, 2024

TO: 12-016-0006 Millersville Rural FPD

RE: Setting of 2024 Property Tax Rates

The following are the tax rate computational forms that have been reviewed. Please follow the steps below to complete the process of setting your 2024 Property Tax Rate(s).

- 1. Lines G BB on the Summary Page should be completed to show the actual tax rate(s) to levy.
- 2. Please sign and date the Summary Page.
- 3. Please **submit the <u>finalized</u> tax rate forms ready for certification to the County Clerk of each county** that your political subdivision resides in. The County Clerk must also sign the Summary Page and indicate the proposed tax rate to be entered on the tax books before submitting rate(s) to the State Auditor's Office for final review and certification.

If the attached calculation differs from the questionnaire submitted for review, please review the following line items for the reason(s) for the difference.

• Form A, Line 2b - New Construction & Improvements - Personal Property

Section 137.073.4, RSMo, states that the aggregate increase in valuation of personal property for the current year over that of the previous year is the equivalent of the new construction and improvements factor for personal property.

• Form A, Line 5 - Prior Year Assessed Valuation

If the 2024 questionnaire has a different amount on Form A, Line 5 than was previously submitted, we had to revise the 2023 calculation for this change. The revised 2023 tax rate ceiling is listed on the 2024 Summary Page, Line A. Your primary County Clerk should forward a copy of the revised 2023 calculation; please keep this form for your files.

• (SCHOOL DISTRICTS ONLY) Form A, Line 14

We revised the information the school district submitted on Line 14 to the amount computed by the Department of Elementary and Secondary Education (DESE).

If you have any questions about the enclosed forms, please contact the local government section at (573-751-4213.)

Computation of reassessment growth and rate for compliance with Article X, Section 22, and Section 137.073, RSMo.

Computation of reassessment growth and rate for computance with Article A, Section 22, an	a section 137.073, RSMo.
Information on this page takes into consideration any voluntary reduction(s) taken in previous even numbered year(s). If in an even number the political subdivision wishes to no longer use the lowered tax rate ceiling to calculate its tax rate, it can hold a public hearing and pass a resolution, a policy statement, or an ordinance justifying its action prior to setting and certifying its tax rate. The information in the Inform Data, at the end of these forms, provides the rate that would be allowed had there been no previous voluntary reduction(s) taken in an even numbered year(s).	Subdivision Use in
9. Percentage increase in adjusted valuation of existing property in the current year over the prior year's assessed valuation (Line 4 - Line 8 / Line 8 x 100)	0.3791%
10. Increase in Consumer Price Index (CPI) certified by the State Tax Commission	3.4000%
11. Adjusted prior year assessed valuation (Line 8)	79,874,547
12. (2023) Tax rate ceiling from prior year	
(Summary Page, Line A)	0.3000
13. Maximum prior year adjusted revenue from property that existed in both years (Line 11 x Line 12 / 100)	239,624

For Political Subdivisions Other Than School Districts Levying a Single Rate on All Property

Millersville Rural FPD 12-016-0006 Debt Service

Name of Political Subdivision Political Subdivision Code Purpose of Levy

The final version of this form MUST be sent to the county clerk.

Debt Service Calculation for General Obligation Bonds Paid for with Property Taxes

1. Total current year assessed valuation obtained from the county clerk or county assessor

The tax rate for debt service will be considered valid if, after making the payment(s) for which the tax was levied, the bonds remain outstanding, and the debt fund reserves do not exceed the following year's payments.

Since the property taxes are levied and collected on a calendar year basis (January - December), it is recommended that this levy be computed using calendar year data.

	(Form A, Line 1 total)	83,893,969
2	Amount required to pay debt service requirements during the next calendar year (i.e. Assuming the current year is year 1, use January - December year 2 payments to complete the year 1 Form C) Include the principal and interest payments due on outstanding general obligation bond issues plus anticipated fees of any transfer agent or paying agent due during the next calendar year.	72.260
	·	73,260
3	Estimated costs of collection and anticipated delinquencies (i.e. collector fees & commissions & assessment fund withholdings) Experience in prior years is the best guide for estimating uncollectible taxes. It is usually 2% to 10% of Line 2 above.	7.226
	·	7,326
4	Reasonable reserve up to one year's payment (i.e. Assuming the current year is year 1, use January - December year 3 payments to complete the year 1 Form C) It is important that the debt service fund have sufficient reserves to prevent any default on the bonds.	
	Include payments for the year following the next calendar year, accounted for on Line 2.	73,000
5	Total required for debt service (Line 2 + Line 3 + Line 4)	153,586
6	Anticipated balance at end of current calendar year Show the anticipated bank or fund balance at December 31st of this year (this will equal the current balance minus the amount of any principal or interest due before December 31st plus any estimated investment earning due before December 31st). Do not add the anticipated collections of this tax into this amount.	76,330
7	Property tax revenue required for debt service (Line 5 - Line 6) Line 6 is subtracted from Line 5 because the debt service fund is only allowed to have the payments required for the next calendar year (Line 2) and the reasonable reserve of the following year's payment (Line 4). Any current balance in the fund is already available to meet these	

requirements so it is deducted from the total revenues required for debt service purposes.

8. **Computation of debt service tax rate** (Line 7 / Line 1 x 100) Round a fraction to the nearest one/one hundredth of a cent.

10. Actual rate to be levied for debt service purposes * (Line 8 - Line 9)

9. Less voluntary reduction by political subdivision

Enter this rate on Line AA of the Summary Page.

^{*} The tax rate levied may be lower than the rate computed as long as adequate funds are available to service the debt requirements.
